

WIKI/SVN accounts

Users who have a @unibz.it or @eurac.edu account are by default enabled to create GIT/SVN repositories. External users should ask for a **WIKI/SVN account** so as to use the service for collaborating with us.

To do so you please proceed by one of the two ways:

- ask the staff member of the Faculty of Computer Science with whom you are collaborating to open a ticket for the Faculty of Computer Science Queue.
- send us via fax +39-0471-016-009 or via [e-mail](#) :
 1. the [WIKI/CVS/SVN usage agreement](#) signed,
 2. the [rules for accessing the network](#) signed,
 3. a copy of a photo-ID.

Please always mind to inform us with whom you are collaborating.
